

# SUNDAY- JULY 7TH

## PROGRAM

7:30	BREAKFAST	
9:00	DEVOTIONAL - The true scientific epistemology has its fountains in God's wisdom and creation knowledge	Constantin Popescu
9:30	WORKSHOP SESSION 3	
	THEO	<b>Going to Babilon and Back</b> Néstor Petruk
	PALEO	<b>Dinosaurs - The Flood Park</b> Raúl Esperante
	EDU/ GEO	<b>Let's Talk Creation II (Resources for Teachers and Youth Leaders)</b> Noemí Durán
	GEO	<b>Advanced Geology II</b> Tom Zoutewelle & Birgir Oskarsson
11:00	BREAK/ CHECK OUT	
12:00	LECTURE SESSION K <b>Closing Remarks</b>	Marius Munteanu
	12:00	A scientist and a creationist? Yes, you can Raúl Esperante
	12:30	That's It. That's All. Martin Pröbstle
	13:00	Are you sure you want to be a creationist? Ronny Nalin
13:30	CLOSURE Noemí Durán	
14:00	LUNCH	
15:30	Departure (Buses leave to Barcelona)	

# SUNDAY - JULY 7TH

## ABSTRACTS

### WORKSHOP SESSION 3 (9:30-11:00)

Four simultaneous workshops will be offered in different rooms.  
Choose the workshop to attend according to your interests.

#### 1. GOING TO BABYLON AND BACK

by **Néstor Petruk**

TOPIC: Theology/Archeology

RECOMMENDED FOR: Pastors / university students

This workshop intends to look into different ancient Near Eastern primeval stories, comparing and discussing the literary context of Genesis 1-11. A common Origin? A regional flood? Does everything bring us back to Babylon?

#### 2. DINOSAURS - THE FLOOD PARK

by **Raúl Esperante**

TOPIC: Paleontology

RECOMMENDED FOR: Teachers / university students

Did God create dinosaurs or are they the result of sin? Did dinosaurs coexist with humans? Does the Bible mention dinosaurs? Is it possible to study dinosaurs from a perspective consistent with the biblical account of creation?

If you have ever asked or being asked this questions, you should come to this workshop!

#### 3. LET'S TALK CREATION II (Resources for teachers and youth leaders )

by **Noemí Durán**

TOPIC: Education/ Geology/Paleontology

RECOMMENDED FOR: Teachers / Youth and Pathfinder leaders

Let's Talk Creation (LTC) is a set of interactive activities to teach Creation to children, teenagers, and young people, in church and school settings. In this workshop we will try some of the activities related to the GEOLOGY and PALEONTOLOGY topics covered in the conference.

#### 4. ADVANCED GEOLOGY II

by **Birgir Oskarsson and Tom Zoutewelle**

TOPIC: Geology

RECOMMENDED FOR: Geologists / university students

This workshop will allow Geology students and other people interested in Geology to have a deeper look into the geology of the Pyrenees.

## ABSTRACTS

### LECTURE SESSION K (12:00-13:30)

#### Closing Remarks

#### A SCIENTIST AND A CREATIONIST? YES, YOU CAN

by Raúl Esperante

Summary of scientific issues regarding creation and evolution.

#### THAT'S IT, THAT'S ALL.

by Martin Pröbstle

Where we stand theologically regarding creation and evolution.

#### ARE YOU SURE YOU WANT TO BE A CREATIONIST?

by Ronny Nalin

"Creationist" is a term often used with a pejorative connotation but it captures well the notion of belief in a Creator God. This talk explores four aspects of what embracing creation entails for those who are interested in the faith and science discussion: biblical foundation, quality science, unconventional thinking, awareness of finitude. In addition, the talk points to some risks and opportunities along the journey, and advocates for the most important aspect of freedom of choice: choosing.
